

Andrew Berezovskyi

C# / .NET Software Developer

 aa20062019aa@gmail.com  +380-666797212  [@berez0vskyi](https://t.me/berez0vskyi)  [GitHub](https://github.com/berez0vskyi)  Kyiv

SUMMARY

Results-driven Software Developer specializing in C# and .NET, with hands-on experience in both desktop (Windows Forms) and web (Astro, TypeScript) environments. Adept at building end-to-end solutions, from secure database architecture to interactive user interfaces. Seeking to apply my technical and problem-solving skills to innovative software projects.

TECHNICAL SKILLS

- **Core Languages:** C#, C, Python
- **Web Technologies:** TypeScript, JavaScript, HTML, CSS, Astro
- **Frameworks & Desktop:** .NET, Windows Forms
- **Databases:** MySQL, SQLite
- **Version Control & Tools:** Git, GitHub
- **Design & Engineering:** Graphic Design, UI/UX Fundamentals, Basic Hardware, Circuit Concepts

PROJECTS

Hotel Management System | C# (.NET 8), Windows Forms, SQLite, ReaLTaiizor

- **Modular Architecture:** Engineered a scalable 7-tier desktop application strictly separating UI, Business Logic (Services), Data Access, and Models. Implemented an event-driven architecture (EventBus) for seamless, asynchronous state updates across forms.
 - **Security & Authentication:** Developed a secure, role-based access control system (Admin/Guest) featuring SHA-256 password hashing. Integrated an SMTP email service for automated user notifications and secure OTP-based password recovery.
 - **Advanced Admin & Voice Control:** Built a comprehensive admin dashboard with full CRUD capabilities for room, staff, and booking management. Integrated a custom **voice-command module** for hands-free navigation and automated system control.
 - **Data Management & UI/UX:** Designed a relational SQLite database with automated initialization and raw SQL query execution. Crafted a modern interface using ReaLTaiizor, featuring real-time booking validation, dynamic data filtering, and automated financial report generation with Excel/CSV export.

-

EDUCATION

Bachelor's Degree in Automation, Computer-Integrated Technologies, and Robotics

Kyiv Polytechnic Institute (KPII) | Expected 2028

- **Relevant Coursework:** Modern Programming Technologies, Modular Programming, Numerical Methods, Fundamentals of Automation and Robotics, Engineering & Computer Graphics (AutoCAD).

Junior Bachelor's Degree in Computer Science

Bila Tserkva Professional College of Mechanics and Energy | Graduated 2024

- **Relevant Coursework:** Object-Oriented Programming (OOP), Python Programming, Computer Networks & Protocols, Computer Graphics (Adobe Photoshop).
-
